

*Petrostreamz AS is a petroleum software and engineering company helping oil companies to optimize their assets. We provide the unique software **Pipe-It** with unprecedented capability to build complex (or simple) integrated asset models and to optimize production. The company was established in 2005 as a spin-off from PERA AS. The company is growing rapidly with international majors adopting Pipe-It as a tool for asset optimization. The company operates globally from Trondheim, but currently has international work opportunities in USA, Brazil, Colombia, and Middle East. For additional information, please go to [www.petrostreamz.com](http://www.petrostreamz.com)*

**We are looking for skilled and motivated candidates to build and maintain Pipe-It projects:**

## Petroleum Engineers / Pipe-It Engineers

### *MAIN FOCUS*

- Integrated Modeling (reservoir, production, process....)
- Production & Asset Optimization
- Advanced PVT & streams management
- Testing and applying Pipe-It solutions
- Build Pipe-It models for clients

The work will take place at Petrostreamz office, and part-time at client offices.

Business Travel in Norway and internationally must be expected.

### *ROLES & RESPONSIBILITIES*

We encourage skilled and motivated candidates who have a background in one or more of the following areas, to contact us.

- Reservoir modeling
- Process modeling
- Flow assurance modeling
- Petroleum economics modeling
- Integrated asset modeling (IAM) & optimization

We are looking for IT-savvy engineering candidates with relevant experience (Bachelor/Master/Doctorate).

### *WE OFFER*

- Exciting and challenging tasks in an environment of growth and development.
- Good opportunities to travel and work abroad.
- Competitive salary and working conditions.
- Health insurance and good pension scheme.
